Hot Springs School District Family Outreach (Backpack Program)

The Backpack Program was launched to help fill weekend gaps for hungry children. The concept is simple: teachers and school administrators work to enroll children who can benefit in the program at the beginning of the school year. A headcount is submitted to the Arkansas Foodbank, which then provides monthly food deliveries to Langston Elementary. Teachers at Langston organize and store the packages. Every Friday, packages are inconspicuously placed in the backpacks of recipient children for them to take home. Portions placed in backpacks are meant to provide three meals for the children on Saturday and Sunday.

Eating Disorder Solutions

While there are a variety of different treatment options available for those struggling with eating disorders, it is important to find the treatment, or combination of treatments, that works best for you. Effective treatment should address more than just your symptoms and destructive eating habits. It should also address the root causes of the problem—the emotional triggers that lead to disordered eating and your difficulty coping with stress, anxiety, fear, sadness, or other uncomfortable emotions.

Adults and teens who attend our recovery centers are given an opportunity to confront their destructive choices, their self-sabotaging behavior, and their unhealthy views with the love of God and the guidance of Biblical principles. One of the major differences between traditional recovery programs and our centers is our emphasis on Christian values and cultivating a personal relationship with Jesus Christ. It is this central spiritual dynamic upon which all aspects of the Adult and Teen Challenge program are built. (855) 363-2334
